### "Vada"

#### 2018 Black Mustang Mare

**NOTES:** Trained by Raeanne Kaz. This black mustang mare has the desire to work, turn on a dime, and take on new obstacles. She's athletic, catty, a thrill to work with, and always looking for her next job.

**Please Note:** There are special terms and conditions applied to the mustangs. Adoption transfer paperwork will need to be completed and submitted to the BLM for approval. This paperwork can be completed after the auction.

**HMA Territory Description:** In the Antelope Valley NV HMA, horses have been part of the range environment in the Great Basin since contemporary livestock grazing began in the mid 1800's. Although there are allotments within the area, there has been no grazing since the early 1980's. The mustangs originating from this territory are descendants from horses used by homesteaders, ranchers, miners, and the Army Remount Services during the early 1900's. This mare was one of nine hundred forty-six mustangs captured August 2019 to maintain their management level of 187-361 within this territory.
